Attractive box set containing Mini-Maul and Kindling Axe and instructions on how to care for your axe.

## MAULS

**3 lb. Mini Maul #952**

3# Mini-Maul - the finest designed small maul.

## GARDEN TOOLS

**Pick 'a Hoe #965**

The most useful garden tool ever offered. Perfect for cultivating soil, weeding, chopping out roots, aerating soil and drawing a seed line. Head is drop forged from carbon steel.

**Heart Hoe #1015**

A very attractive, yet rugged single prong hand hoe mounted on a grained ash handle. Light but very strong.

**Weed Slicer - #1020**

Sharp blade on an offset handle. Weed Slicer is pulled just under the soil and cuts weeds without disturbing the soil.

**Cape Cod Weeder - #1018**

Sharp edge for cutting weeds, edging lawn, or pruning twigs.

**Garden Trowel #1028**

This is our big-little trowel that won't fail you ... ever. The blade is 7" long and overall it's 19". Also has leather thong for easy hanging.

**Transplanting Trowel #1029**

Overall length - 19¼"  
Blade length - 6 x 2¼"

For setting out potted plants or bulbs, this trowel is designed to maximize your efforts through a well designed tool. The Trowel is made of heavy gauge steel with a hard carbon shaft so the tool will not bend. It's all mounted on our ash handle with the leather thong. There are inch increments on the blade.

**The Claw #1013** - A three-prong hoe

A new variation of an old product. Three hard carbon spring tines are inserted in our ash handle. The result is a delicate, yet strong tool for hand hoeing around delicate plants. To operate, just "Claw" the soil around your plants to get rid of unwanted weeds.

**Dandelion Weeder #1014**

Overall length - 17"

This is the perfect tool for cutting off deep rooted weeds such as the dandelion. It's also called a "fish-tail" weeder to harvest asparagus. The working part is hand forged from hard carbon steel that will not bend. This steel holds a sharp edge and is easy to re-sharpen. The handle is ash with a leather thong for easy storage.

**Long Handled Bulb Planter #1025**

Hand forged from carbon steel, this bulb planter will make your planting much easier. The working tube is 7" long. Cone opening is 2½".

**Hand Bulb Planter #1030**

Same sturdy construction as the long handle planter.

**Garden Dibble #960**

For transplanting seedlings and planting bulbs. 5½" steel point mounted on a hard wood ferruled D-ring handle. Also available in a long handle (34") version, #961.

**Lawn Edger #1038**

All metal edger for keeping lawns attractive.

**Garden Tongs #1045**

Looks like old fashioned ice tongs but these are designed to move landscaping ties or logs into place for raised beds or terraces.

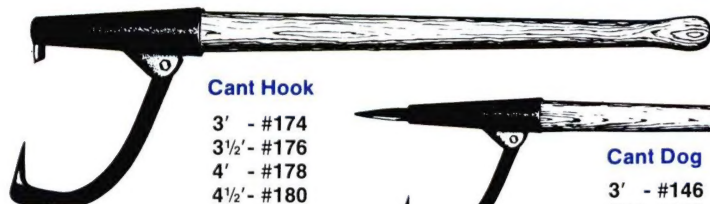

**Boot Scraper #1000**

Custom forged Boot Scraper, measuring 12" x 7" with a 6" plate. Can be inserted into ground with 9" spikes or mounted on steps.
